

## Event Regulations

The Nacogdoches Fire Department is excited about your upcoming event. In an effort to ensure that the activity is successful and safe, the following guidelines should be observed:

- Use of open flame devices in the downtown area must be approved by the Fire Marshal prior to the event.
- All food vendors must have one 5 pound ABC Dry Chemical Extinguisher with a current State Fire Marshal inspection tag attached.
- Fire/Safety Inspections will be performed on the day of the event
- All electrical systems must be in safe working condition.
- All electrical wires should be secured to prevent trips and falls.
- Compressed gas cylinders (such as those containing helium) must be secured using a durable device such as a chain or webbed strap.
- Access for emergency vehicles must be maintained at all times. Events that will restrict roadway access should provide a site plan and receive approval prior to the event.

Thank you for helping us keep Nacogdoches safe! If you have questions, please contact us at 936/559-2541.

Keith Kiplinger, Fire Chief
